

Network of National ITS Association Workshops  
Trial Road Pricing Eindhoven, The Netherlands

**Maurice Geraets, Senior Director NXP**

15 October 2009, Prague

# NXP Semiconductors

- ▶ **President & CEO:** Rick Clemmer
- ▶ **Headquarters:** Eindhoven, The Netherlands
- ▶ **Net sales:** \$5.4 billion in 2008 \*)
- ▶ **R&D:** 6000 engineers, \$1.2 billion in 2008 \*)
- ▶ Established in 2006 (formerly a division of Philips)
- ▶ 50+ years of experience in semiconductors

*NXP provides engineers and designers with semiconductors, system solutions and software that deliver better sensory experiences*

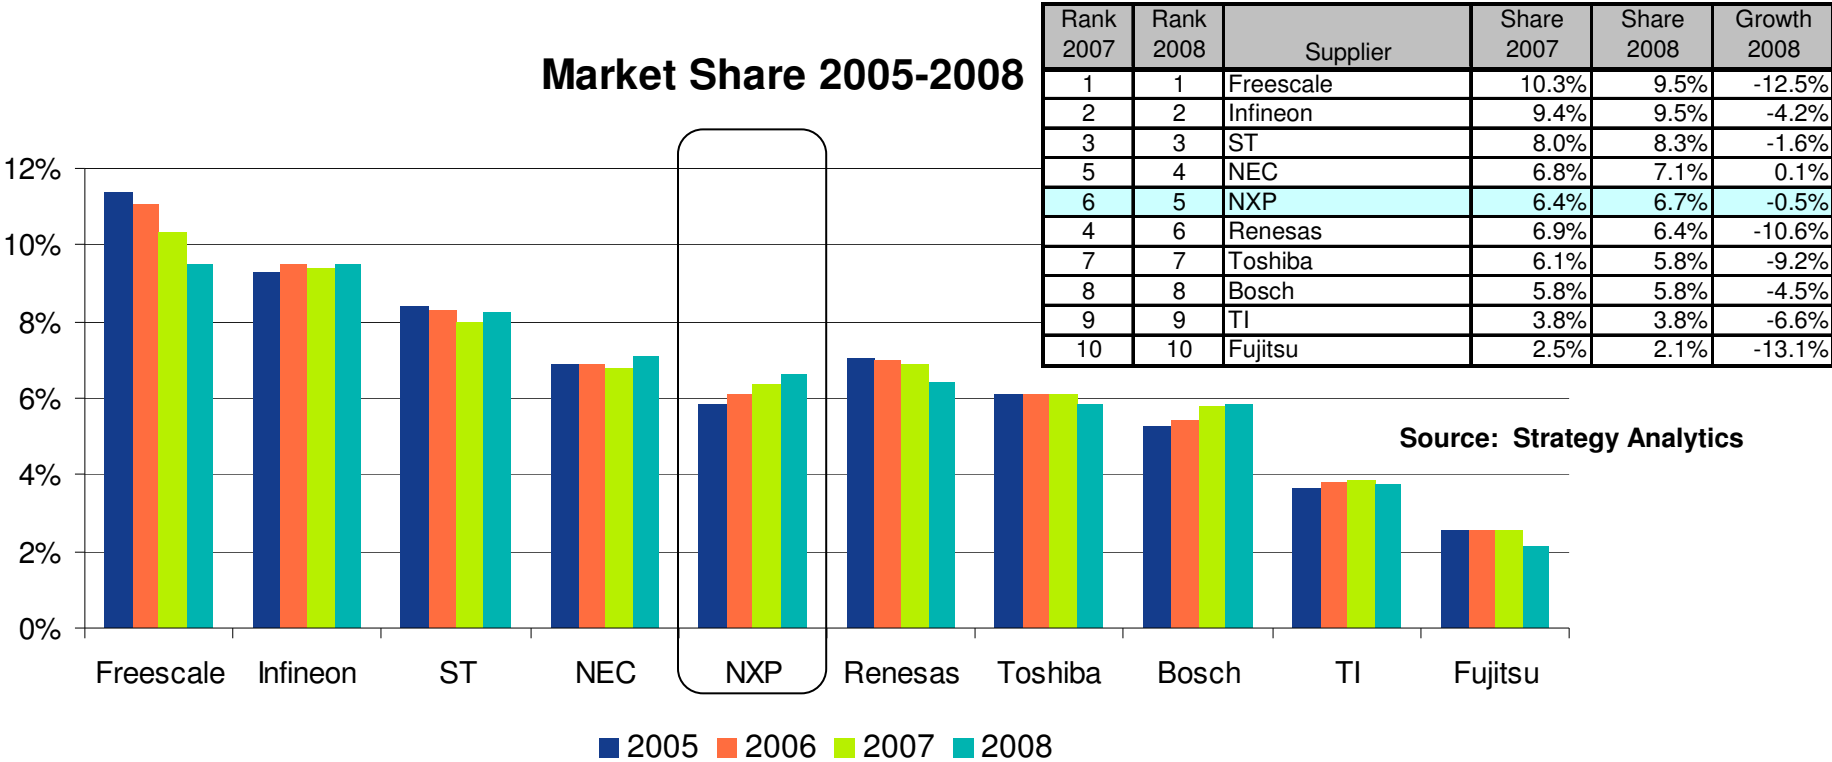

- ▶ **Businesses:**
  - Home
  - Automotive
  - Identification
  - Multimarket Semiconductors

\*) These figures include the Mobile & Personal business which was largely part of the ST-NXP Wireless JV in 2008

# NXP Automotive is Consistently Winning Share

**NXP has the strongest win of share since 2005**

# Some of Today's Society Challenges

**Ensure safety**

**Emergency Call**

**Enhance mobility**

**Road Pricing**

**Care for environment**

# Some of Today's Governmental Drivers

**Finance Infrastructure, ...**

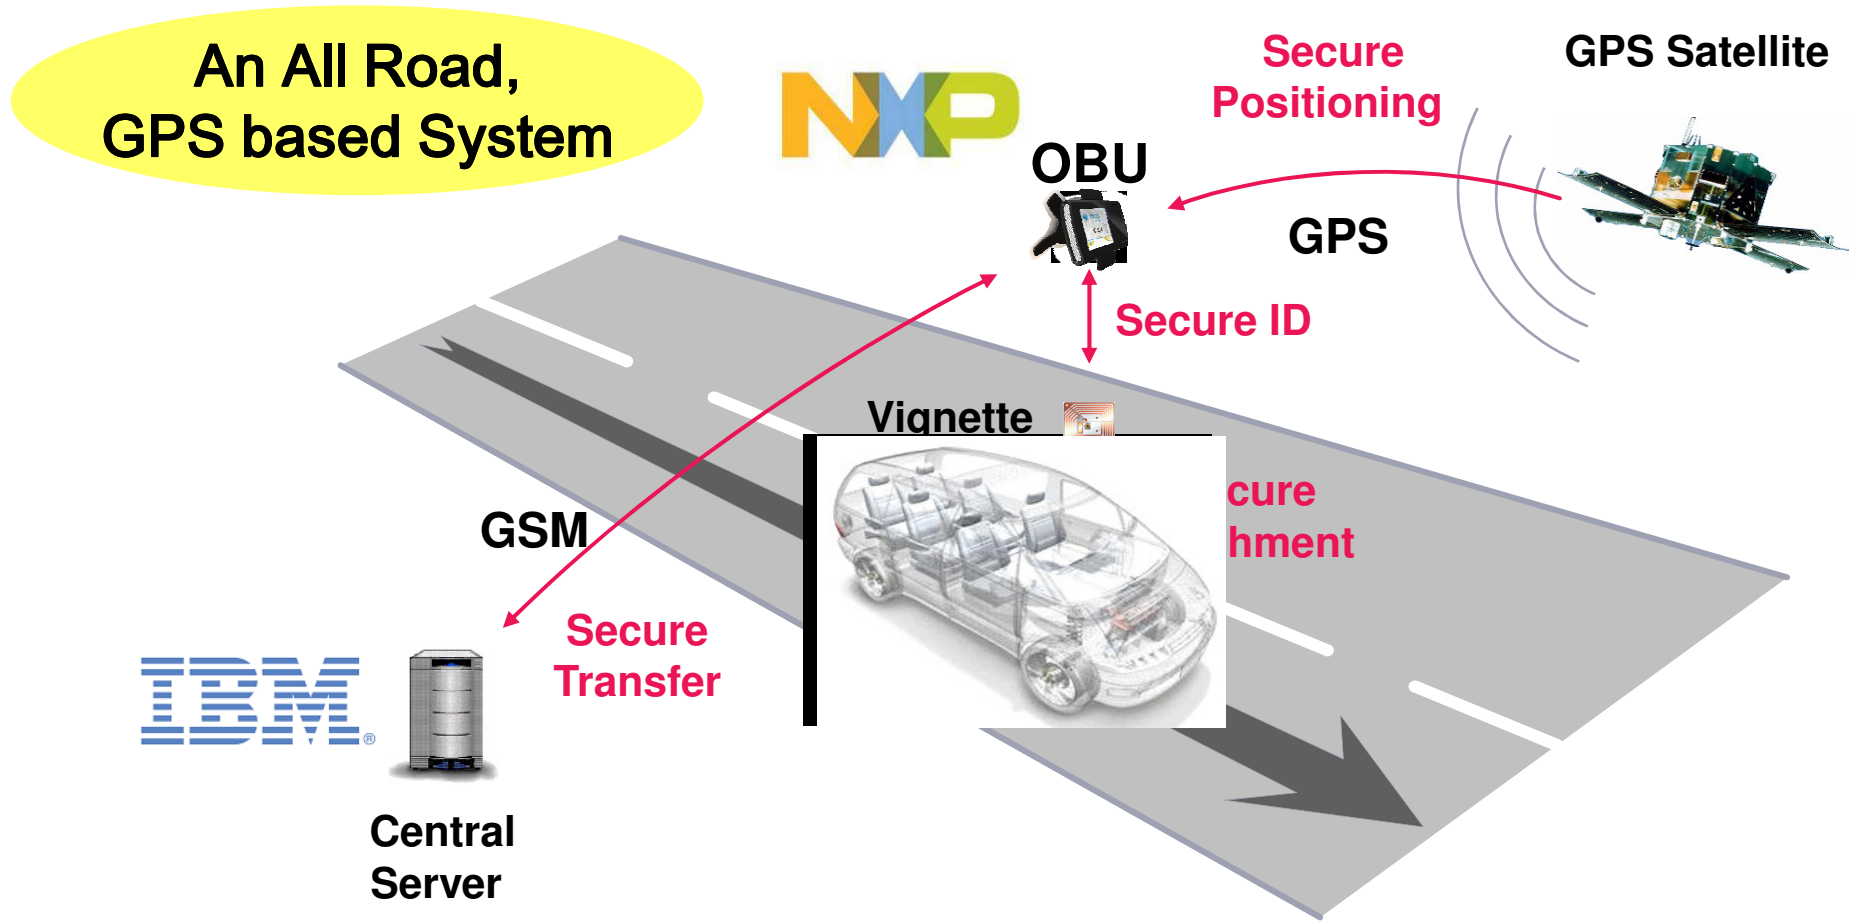

**Fair Taxing: Pay for Use**

**Enhance mobility**

**Care for environment**

**Road Pricing**

# Road Pricing: Fair Tax for Road Usage depending on Distance, Time, Place and Pollution Car

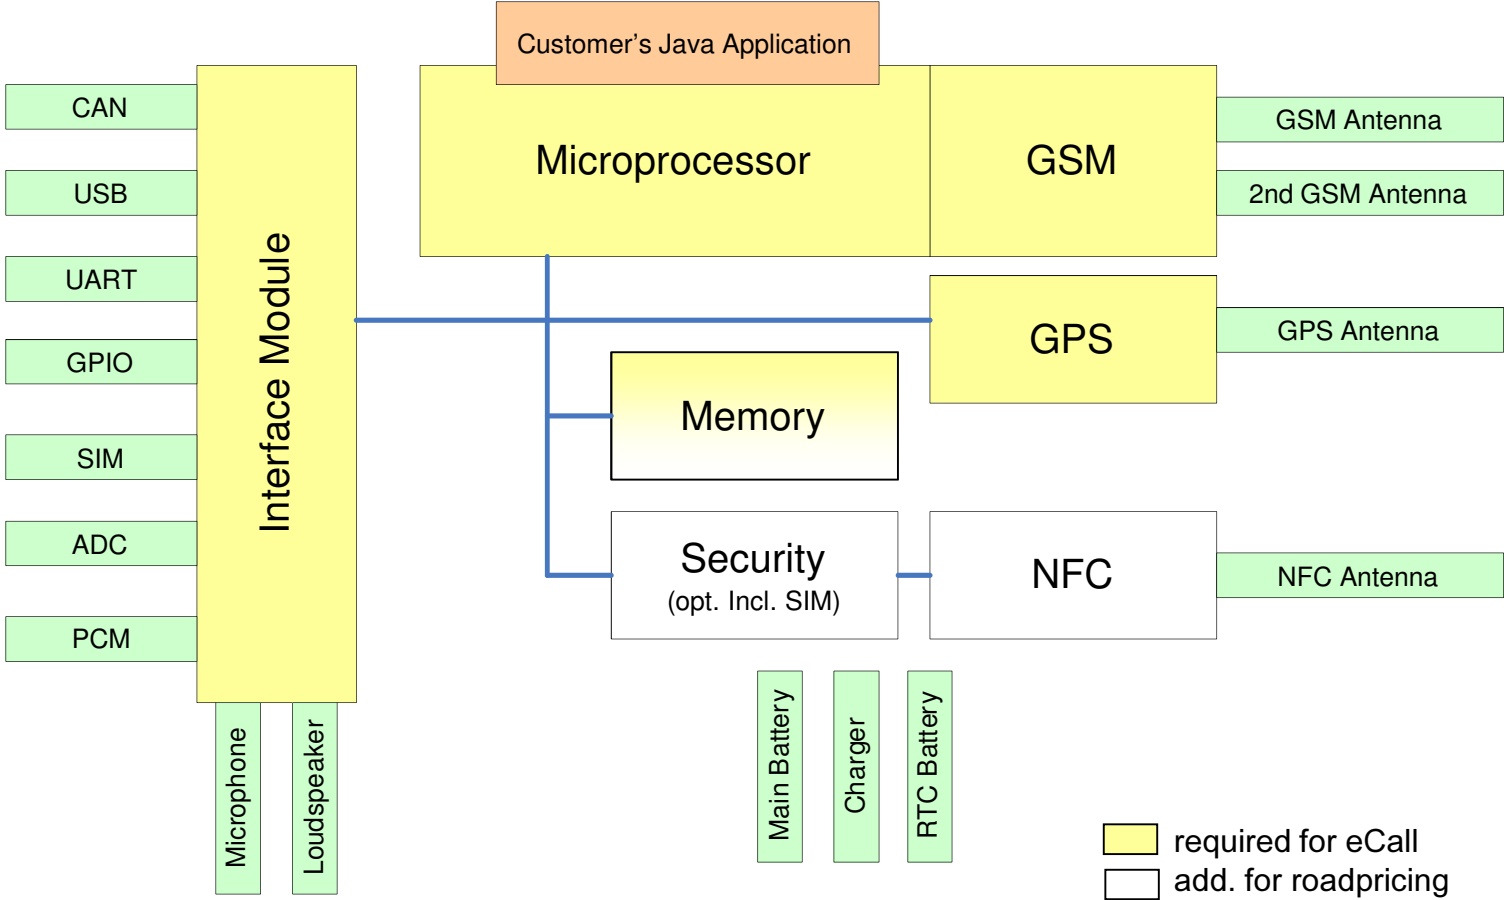

Fair Taxing

Enhanced mobility

Care for environment

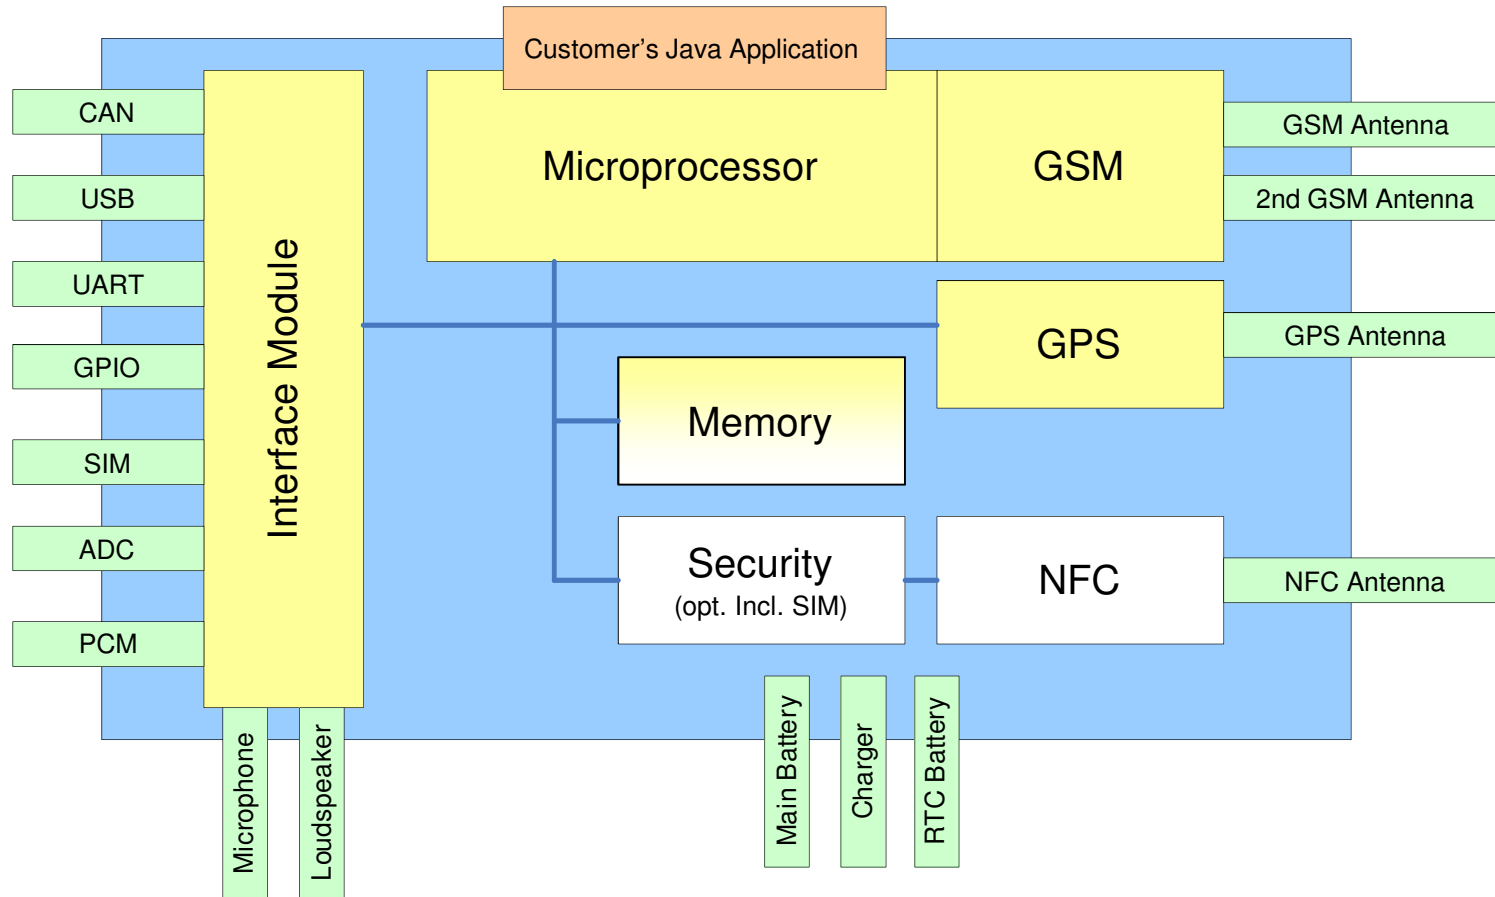

# Required for a Telematics OBU

# Automotive Telematics OBU Platform

## ATOP

# NXP's ATOP - Highly Integrated Platform

GPRS

GPS

Credit Card  
element

**Privacy secured**

**Low cost on board unit (OBU)**

**Accurate taxing ensured**

**Low cost (self) installment**

**In line with EU Standards**

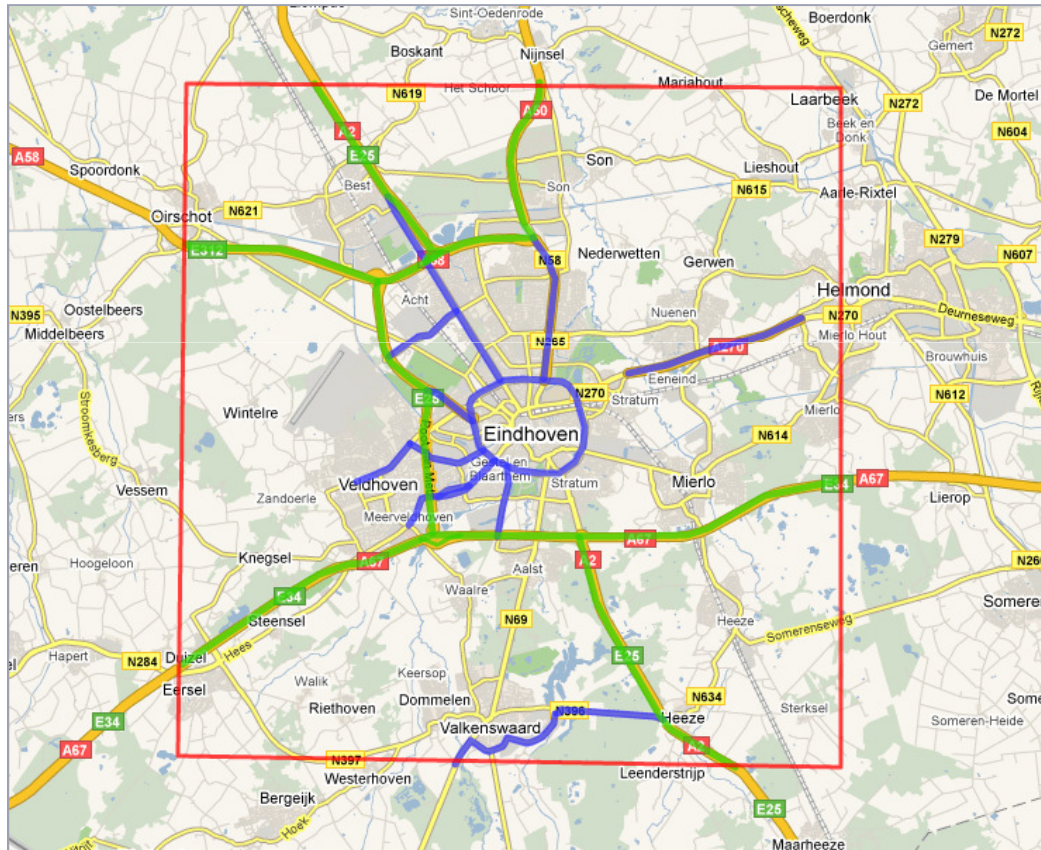

**Vignette ensures OBU in Car**

# First Trial Road Pricing in The Netherlands

50 NXP and IBM employees: > 100000 kms

Tariff depending on **distance**, **time** and place (**road type**)

Tariff in Eurocent per km	8 – 9 am 5 – 6 pm	Outside of rush hours
City, local roads	20	12
Circular roads	10	5
Highways	5	3
Outside region	2	2

## Phases:

1. Zero measurement
2. Improvement competition: rewards
3. No rewards, check impact

ew On Map

# Early Conclusions after more than 100.000 kms

- ▶ ~70% of drivers improved behavior by:
  - Using high ways instead of local roads
  - Avoiding rush hours
- ▶ These users showed >16% improvement in average cost / km
- ▶ For commute traffic:
  - users will make trade off between costs and behavior they are used to
- ▶ User interaction (display) is essential to influence behavior (taxi meter)
- ▶ The maps should be up to date all time to tax correctly, leads to central map
- ▶ No major issues in the technology, identified essential requirements:  
**Ease of Use, Robustness, Security, Privacy, Over the Air Updates**

**The Core Technology for 'Kilometerbeprijzing' is Available  
and can also be used for Value Added Services**

# Strong Support from Government and Press

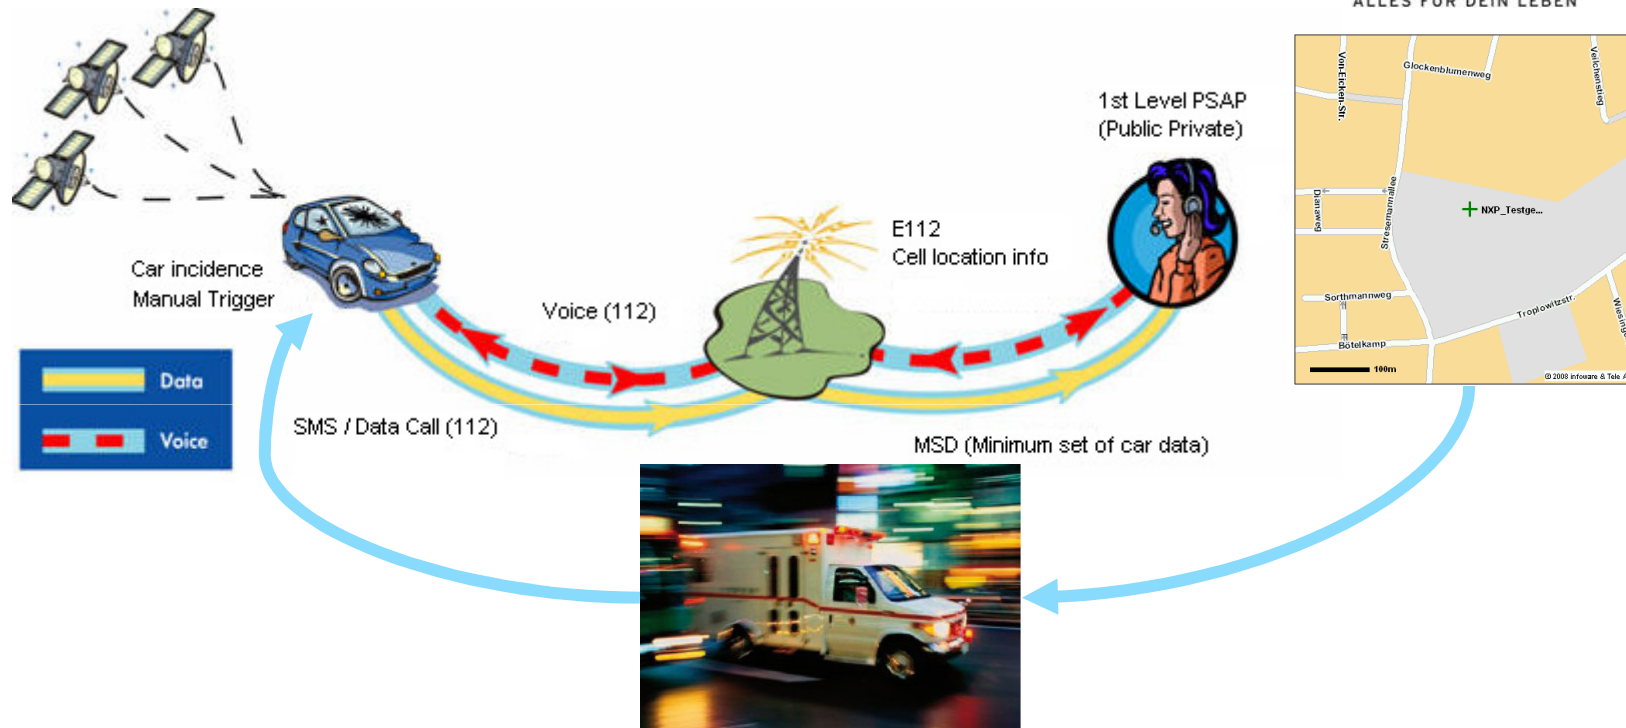

# Improve Safety Emergency Call

**Björn Steiger Stiftung**  
**LIFESERVICE E-CALL**

ALLES FÜR DEIN LEBEN

Saving thousands of lives per year, in a cost efficient way  
Easy integration of automatic accident alert system in cars
